Commercial Insurance Submission Questionnaire

Producer-guided underwriting narrative | Complete only applicable sections. Primble should prefill known facts from uploaded documents, show the source, and request confirmation of discrepancies.

Response convention: Answer each applicable question or select Unknown / Pending confirmation / Not applicable. Do not guess. For each material fact, record source, as-of date, and whether producer or insured confirmed it.

A. Submission overview

Required for every account.

1. Named insured and all related entities / DBAs; mailing address and primary contact (name, role, email, phone).

Response: _____

2. Effective date, submission purpose (new business / renewal / remarketing), target carriers if known, requested coverage lines, and desired limits / deductibles.

Response: _____

3. Producer, agency, and contact details; decision deadline, quote due date, and reason for marketing.

Response: _____

4. What makes this account attractive to underwrite? Brief factual summary of operations and controls.

Response: _____

5. Which facts remain unknown or require insured confirmation?

Response: _____

B. Business identity and operations

Describe what the insured actually does, not only its NAICS or website description.

1. Legal structure, FEIN (secure field), years in business, years of owner experience, ownership changes and acquisitions.

Response: _____

2. Plain-language description of products/services and how work is performed; primary customer types.

Response: _____

3. Operations by percentage of revenue (must total 100%); residential/commercial/industrial and new construction/service/repair breakdown where relevant.

Response: _____

4. Annual gross revenue: prior year, current estimate and next-year projection; explain material changes.

Response: _____

5. Employee count (full/part time/seasonal), use of leased employees, temporary labor and subcontractors.

Response: _____

6. States of operation, jobsite locations, international exposures, and any unusual or newly added operations.

Response: _____

7. Licenses, certifications, contractual requirements and major changes anticipated next 12 months.

Response: _____

C. Loss history and risk management

Use loss runs for verification; narrative explains context rather than replacing loss runs.

1. Claims/loss history period available by line, including open claims and valuation dates; identify missing years.

Response: _____

2. Material losses: date, cause, amount paid/reserved, corrective actions, and whether conditions have changed.

Response: _____

3. Safety program, employee training, inspections, incident reporting, contractual risk transfer and management oversight.

Response: _____

4. Prior nonrenewals, cancellations, declinations, significant underwriting restrictions or coverage gaps, with explanation.

Response: _____

D. General Liability and contractors

Show only for GL / contractors / completed operations.

1. Work types, largest projects, project values, jobsite hazards, height/depth work, hot work, excavation and other applicable exposures.

Response: _____

2. Annual sales or other rating bases by operation/class; confirm GL operations align with WC classifications.

Response: _____

3. Subcontracted work percentage, subcontractor selection, certificates, additional insured and waiver requirements.

Response: _____

4. Contract terms, indemnity, hold harmless, additional insured requirements and any wrap-up / OCIP / CCIP work.

Response: _____

5. Products/completed operations exposure, warranties, recalls, professional/design responsibilities and prior completed-work losses.

Response: _____

E. Workers' Compensation and Employers' Liability

Show only when WC / EL is requested. Employers' Liability is not Employee Benefits Liability.

1. Payroll by state and WC class code, estimated versus actual, including owners/officers and inclusion/exclusion status.

Response: _____

2. Experience modification factor, rating effective date, loss-control practices and safety responsibilities.

Response: _____

3. Subcontractor / independent-contractor labor, certificates, uninsured subcontractor exposure and out-of-state work.

Response: _____

4. Requested Employers' Liability limits; any alternate employer or waiver of subrogation requirements.

Response: _____

F. Commercial Auto

Show only when business auto coverage is requested.

1. Fleet counts by vehicle type and use; owned, hired, non-owned, leased and employee-owned vehicles.

Response: _____

2. Garaging locations, operating radius, states, commodities carried and special vehicle exposures.

Response: _____

3. Driver eligibility, MVR review, telematics, driver training, accident controls and vehicle maintenance.

Response: _____

4. Prior auto losses, changes to fleet, requested physical damage values/deductibles and applicable filings.

Response: _____

G. Property and Business Income

Repeat building-level questions for every insured location/building; never apply one building's details to all.

1. Location/building number, address, ownership/tenant status, occupancy and tenant operations.

Response: _____

2. Year built, construction type, stories, square footage, roof type, roof age / last replacement, updates and protective safeguards.

Response: _____

3. Building, business personal property, stock and equipment values; valuation basis, coinsurance, deductibles and catastrophe exposures.

Response: _____

4. Sprinklers, alarms, fire protection, distance to hydrant/fire station and critical building systems, where known.

Response: _____

5. Business Income / Extra Expense requested values and basis; dependencies, maximum expected downtime and continuity plan.

Response: _____

6. Any explicitly stated Business Income Period of Restoration terms or requested coverage extensions; do not substitute Extended Period of Indemnity.

Response: _____

7. Vacancy, renovations, property in transit, offsite property and seasonal inventory changes.

Response: _____

H. Umbrella / Excess

Show only when umbrella or excess coverage is requested.

1. Requested limit, attachment points, underlying policy lines, carriers, policy dates and limits.

Response: _____

2. Known exclusions, gaps, differing underlying terms, auto/WC/GL coordination and contractual limit requirements.

Response: _____

3. Large contracts, high-hazard operations and prior severe losses relevant to excess underwriting.

Response: _____

I. Cyber and Technology

Show only for cyber / technology-related coverages. Do not treat a blank control as “False.”

1. Business use of technology, sensitive data types, approximate records and reliance on critical vendors.

Response: _____

2. MFA status and scope, backups and restoration testing, endpoint protection, patching and access controls.

Response: _____

3. Incident response plan, employee security training, past incidents, ransomware/payment fraud exposure and outsourcing.

Response: _____

4. Business interruption dependencies, revenue impact, requested limits, retentions and contractual requirements.

Response: _____

J. Management and Professional Liability

Show EPLI, D&O, E&O or EBL questions only when those coverages are requested.

1. EPLI: workforce geography, HR practices, employee handbook, complaint procedures, turnover and employment claims.

Response: _____

2. D&O: entity ownership, board/governance, funding, debt, financial changes and known disputes.

Response: _____

3. Professional liability: professional services, contracts, project/client concentration, quality controls and claims.

Response: _____

4. Employee Benefits Liability: benefit plans administered, enrollment/eligibility procedures, third-party administrators and known administrative errors.

Response: _____

K. Other specialty coverages

Only show relevant specialty modules, e.g., inland marine, crime, pollution, builders risk, equipment breakdown.

1. Specific insured property, activities, locations, values, custody/control, transit and catastrophe exposure.

Response: _____

2. Crime: funds-transfer approval, segregation of duties, employee dishonesty and social engineering controls.

Response: _____

3. Pollution: materials handled, disposal practices, historical incidents and remediation obligations.

Response: _____

4. Any other unusual exposures or requested endorsements not captured above.

Response: _____

L. Producer narrative and underwriting presentation

A concise human-readable summary should be generated from verified structured answers.

1. Why is this account being submitted now, and what coverage outcome is requested?

Response: _____

2. What are the top three risk strengths and supporting evidence?

Response: _____

3. What are the top three material underwriting concerns and how are they mitigated?

Response: _____

4. What has changed since the prior policy period, and what must the underwriter know?

Response: _____

5. What information is still outstanding, who owns it and when will it be provided?

Response: _____

Implementation rules for Primble

• Prefill from documents, but distinguish Extracted / Producer confirmed / Insured confirmed / Unverified / Conflicting / Not applicable.

• Every answer needs a source reference and effective/as-of date when available. A blank field is not equivalent to “No.”

• Display conditional modules based on requested lines and operations. Allow manual additions for uncovered exposures.

• Separate core submission requirements from carrier-specific supplemental questions; do not claim this replaces official ACORD or carrier applications.

• When conflicting values exist (e.g., payroll in narrative versus WC schedule), present both and require resolution, never silently overwrite.

• Score missing applicable facts under Completeness, actual contradictions under Consistency, and prevent duplicate penalties for one issue.

• Only block readiness for critical applicable information; use warnings for noncritical gaps. Record remediation owner and status.

• Generate a 1–2 page carrier-facing narrative from confirmed answers and keep the detailed questionnaire internally.

Suggested initial core fields: insured identity; effective date; requested coverages; operations and revenue breakdown; payroll/headcount; locations; claims; material changes; limits; producer contact. Add coverage-specific fields only when applicable.
